For "gratitude" sake the State Journal thinks Mr. Keyes should be elected Senator.

The State Journal of Monday evening quotes from Addison, Noah Webster, Worcester, and Dr. Parr, to prove that Mr. Keyes should be elected to the Senate.

During 1878 Governor Smith pardoned twenty-five convicts, and restored citizenship to fifty-two. Governor Smith has the credit of exercising the pardoning prerogative with much discretion.

The State Journal has insisted that because Mr. Keyes had two or three more votes than either Carpenter or Howe, that the two latter should draw from the Senatorial course. Now that Carpenter led Mr. Keyes very handsomely last night on several ballots, does it think that Mr. Keyes should withdraw? It is a good thing to be consistent.

General Grant has completely spoiled the Democratic story that he was going to take his great voyage to the East at the expense of the Government. In his letter accepting the offer of the Administration to take passage on the United States man-of-war Richmond, he assures the Navy Department that "he will be ready to embark whenever the vessel is ready, so that there will be no delay; that he will use the ordinary means of conveyance if he desires to visit parts to which the vessel would not go if he was not on board, and that he shall see to it that his entertainment on board the Richmond shall not cost the Government anything. This letter, written when the invitation from the Government was first received, is a complete answer to the ill-natured criticisms that have been indulged in by enemies of the Administration and of General Grant upon the courtesies shown the latter. Of course, it was written in perfect ignorance of such flings."

The exports from the United States to Europe are among the significant signs of the time. This spring there will be nearly a million pounds of Virginia and Kentucky tobacco shipped to Spain to be made into cigars. Under the new order of things, Europe is doing much for American manufacturers and American mechanics. Of course it is humiliating to Europe but flattering to American enterprise and a strong endorsement of home protection. We are now sending beef to Germany, cheese and beef to England, caviare to Russia, cotton goods and machinery to almost every country in Europe, and now one of the strangest thing is that we send tobacco to Spain. American products now find their way to the remotest parts of the earth. We astonish all Europe with the strides we are making in this direction. "Man cannot travel to any quarter of the globe without meeting with some kind of American goods. Hundreds of people in the far East, who may never have seen a 'live Yankee,' have eaten or used something that the Yankees have made, and every year adds to the sum total of our innumerable exports."

The remarkable and touching story of the Howards in New Orleans, is published, which contains an account of the labor they performed the past year during the yellow fever's rapid spread and fatal work. The city of New Orleans was divided into 20 districts, and slates were hung up at convenient points whereon applications from the destitute sick were written. The working force of the Howards in New Orleans was 125 men, whose entire time was devoted to the sick and suffering. The total number of patients cared for by the Howards in that city during the 71 days of the fever's rage, from August 17 to October 26, was 22,244. This does not include all the cases occurring in the city, but only those cared for by the Howards There were cases outside the city cared for by the New Orleans Howards, which makes a grand total of patients treated by them of 35,750. Beside caring for the sick, there were 60,000 destitute people provided with food and clothing by the Howards during the prevalence of the fever. The New Orleans Howards received in donations from various cities the great sum of $383,449.93, of which $380,858.93 was expended.

The message of Governor McClellan, of New Jersey, gives some striking facts in regard to the indebtedness of many of the towns and cities in that State. The information he imparts on this subject is almost appalling. The total municipal debt of the State amounts to nearly fifty million dollars! The debt of the nine towns—Jersey City, Hoboken, Newark, Paterson, Elizabeth, Rahway, New Brunswick, Trenton, and Camden, amounts to 36 millions of dollars, or one-sixth of their entire taxable property. The debt of Rahway per capita, is $243, and the city expenses per head, $23. The debt of Elizabeth per capita, is $224 and the annual expenses $14 per head. This is the way the people of New Jersey are taxed—almost to death—to support fancy municipal governments. Elizabeth, "which has absolutely nothing to recommend it beyond its railway facilities, puts on airs of a thriving city, spends borrowed money to suit the purposes of speculators in houses and lots, and 'runs into debt head over heels,' which make bankruptcy merely a question of time." Other cities in that little State—a State which should be prosperous—are ground to dust by heavy taxation. They should be a little more modest in their ambition, and more wise in the expenditure of money for municipal purposes, and thus patron after some of the Wisconsin cities. What the Gazette has often said it repeats again that Legislatures and the National Congress don't rob the people and burden them with debt. Common Councils and Boards of Aldermen spend the peoples' money, and create heavy taxation.

FRANCE.

Paris Happy and Content--Triumph of the Ministry in the Chamber of Deputies.

LONDON, Jan. 20.—A Paris correspondent of the Herald telegraphs as follows: "Paris is happy and content to-night. The triumph of the Ministry in the Chamber of Deputies this evening is regarded with general satisfaction. M. Dufaure's speech was an admirable effort, and decided at once the wavering assemblage. The majority of 102, by which the vote of confidence was carried (the figures stood 223 to 121) is sufficient to bear down all further radical efforts of a similar character, and the prestige of this apparent victory will impart a prolonged vitality to the Cabinet. M. Dufaure's speech proved how unjust and ill-founded has been this attack on the Ministry. The temper of the country is clearly shown in the fact that for the last few days the members of the Chamber of Deputies have been overwhelmed with dispatches from their constituents, calling upon them to support the government. The vote is most important, and will fully restore confidence in republican government, which had begun to be shaken by these unaccountable assaults on an honest and energetic Ministry, and it will give a fresh stimulus to financial and commercial operations, which were fast being paralyzed by this state of things."

RAPID FUNDING.

The Great Sales of 4 per Cents—Another Call for 6 Per Cents.

WASHINGTON, Jan. 20.—Subscriptions to the new loan reached $7,000,000 to-day, and on Wednesday another call for 6 per cents will be made which will make $100,000,000, or one-third the entire series of 1867, that Secretary Sherman has funded into 4 per cents within three weeks, or eighteen business days, and instead of refunding the entire issue within this year, which was all he hoped, he will be able to accomplish it in less than three months if the present demand keeps up. No syndicate ever disposed of a government loan so rapidly as Sherman has disposed of this, even at unprecedented low rates of interest; and the demand has not come from foreign capitalists, as in the sales of the syndicates, but directly from our own people; and although there is so great a howl about Sherman's commissions on large sales, they are not one-half as great as was paid the syndicate for placing the six per cent. bonds. Another fallacy which has been used by the Democrats to discourage this loan is the cry that all this money is taken away from other investments; that if bonds were not purchased with it the money would be used in manufactures and in developing the country. This is entirely fallacious, as every cent by the sale of 4 per cents is restored ninety days after by redemption of 6 per cents, so that the amount invested in productive enterprises is not lessened a dollar.

THE PENSION BILL.

Will the President Sign It?—Probability that the Bill Will Be Vetoed.

WASHINGTON, Jan. 20—There is much anxiety at the Treasury at the passage of the Arrears-of-Pension bill. Secretary Sherman is reported as having said that he shall urge the President to veto it, as the Treasury will not be able to meet the demand upon it should the bill become a law. The experts differ as to the amount which the bill would take from the Treasury, some claiming that it would reach above $50,000,000. The best estimate is regarded at the Pension Office as about $20,000,000. The claim agents are jubilant, and would be able to muster an influential lobby to secure the passage of the bill, even over a veto. The bill, it is said, would allow to each new pensioner, if he is a private, from $1,200 to $1,600 as a first payment, while the amount to officers would be from two to four times as much, according to rank.

The Pension bill has been sent to the President and by him referred to the Secretaries of the Treasury and the Interior for a report upon its merits and demerits. Further examination of the bill as it passed Congress shows that it is in some very important particulars different from that upon which the estimate of the Commissioner of Pensions was made, and it is known that several millions of dollars more will be required to meet its provisions than was at first supposed. It is also learned that the petitions which have been coming in to Senators and members of Congress praying for the passage of this bill have been prepared in response to circulars which have been sent out by the thousand by Washington claim agents. It will probably require an addition of from fifty to one hundred permanent clerks to the force of the Pension Office to perform the work which this measure will put upon it.

The Commissioner of Pensions has prepared the following circular for issue today:

WASHINGTON, D. C., Jan. 20, 1879.—SIR: For your information I have the honor to state:

First—That, as soon as practicable after th Arrears bill lately passed by Congress shall have been approved by the President I will issue and publish instructions for the guidance of all persons who are entitled to arrears under its provisions.

Second—No claims for arrears under the provisions of the bill due to pensioners already upon the rolls will be adjusted until Congress shall have appropriated money for the payment of such claim.

Third—Meantime, inquiries made by interested parties individual cases will be filed, but no answer made until they are taken for adjustment.

The above rules will be observed in handling claims for arrears under the bill in question in order to prevent the work of the office from becoming blockaded by unnecessary correspondence.

Very respectfully,
J. A. BENTLEY,
Commissioner of Pensions.

Ringing the Bells.

"It's harder to ring the peals than to chime. It takes one man to each rope to ring the peals. It's like playing an instrument, you see, in ringing the changes. Each man has to know his part and keep his mind on it, for if he makes the slightest mistake it puts everything out of order and the bells all "come home" and they have to go back and begin over again. It is unlike any other kind of music in that way. You play on a piano or organ and strike the wrong key you can set yourself right again without going back. But in change-ringing if a wrong stroke is made you must go back and get right again, no matter if you've been ringing for an hour. It's not easy work ringing the changes. But it's harder or easier according to the greater or less number of bells. Some churches have more bells and some less. Seven bells with a tenor behind have 5,040 changes. To ring them all, ringing twenty-four changes to the minute, takes three hours and thirty minutes. To ring the changes on twelve bells would take 37 years and 336 days. The highest number of changes that was ever rang on bells was 15,000, rung by a club of young gentlemen amateurs in London, and they had to feed 'em while they were doing it."—*Philadelphia Times.*

Chandler's Last Joke.

The following story of a death-bed joke by the late brilliant but eccentric Shanghai Chandler, which appeared in the Madison Journal is so like that unfortunate man that it must be true:.

The following, told of the last moments of the late Shanghai Chandler, we do not think has hitherto appeared in print. It is said that when he was on his death-bed at Baraboo, kind friends were around him, whispering and watching earnestly for the last flicker of light from a once brilliant intellect. The death damp was coming on. Breathing could scarcely be recognized. Some one felt of the dying man's feet and whispered: "they are cold—he's going." These words were heard by him who was passing over the river to the other life, when he asked in a tone, faintly but calmly: "Tell me, friends, did you ever hear of men dying with warm feet?" "No, we never did," was the reply. "Well, then," said Chandler, "you would better read of the martyrs, at the stake!" Then, with a slight wave of the hand, he landed on the other shore, and if he met a friend there he no doubt greeted him with a joke.

The Congressional Library.

The annual report of Mr. A. R. Spofford, Librarian of Congress, which was submitted to the Senate to-day by the chairman of the library committee, shows that additions to the law department number 3,841 volumes, and to the miscellaneous library number 17,656 volumes, besides 11,689 pamphlets and 2,244 maps and charts. At the date of the last report, January 1, 1878, the whole library numbered 331,118 volumes and about 110,000 pamphlets. The aggregate increase during the year has been 21,537 volumes, which swells the aggregate contents of the library to 352,655 volumes, besides 120,000 pamphlets. The copyright fees received and paid into the treasury for the past year amount to $13,134.50. For the preceding year the aggregate fees were $13,076, showing an increase of $58.50.

SENATORIAL CAUCUS.

The Result of a Member Visiting His Constituency.

The Result of the Republican Caucus Last Night.

THE CAUCUS.

A Dangerous Torpor.

Torpor or inactivity of the kidneys is seriously dangerous to those organs, since it is the precedent of diseases which destroy their substance and endanger life. This sluggishness may be overcome by stimulating them, not excessively, but moderately, an effect produced by Hostetter's Stomach Bitters, a general invigorant and alterative, possessing diuretic properties of no common order. The impetus which this admirable medicine gives to their evacuative function counteracts any tendency to congestion which may exist in their tissues. Both they and their associate organ, the bladder, are invigorated as well as gently stimulated by the Bitters, which exerts a kindred influence upon the stomach, liver and bowels, and by strengthening the system, enables it to withstand malarial epidemics, to which when exposed it might otherwise succumb.

THE LEGISLATURE.

A Huge Grist of Petitions for a Liquor Law--Other Important Legislative Items.

Special to the Gazette.

MADISON, Jan. 21.—In the Senate a huge grist of petitions were offered in favor of Senator Price's scheme for a constitutional amendment to prohibit the liquor traffic within Wisconsin.

Petitions were received from Milwaukee business men, praying for a change in the system of prison labor.

Bills were introduced appropriating eight thousand dollars to the commissioner of State fisheries.

Also to encourage artificial propagation of fish among the people.

Governor Smith sent in a report of pardons granted in 1878, showing the pardon of twenty-five convicts, and the restoration to citizenship of fifty-two.

Adjourned till 7:30 p. m., when a Senatorial vote will be taken.

In the Assembly petitions were offered in favor of fraternal societies; in favor of the liquor traffic; for a change in the system of prison labor.

Bills were introduced to legally protect inmates of insane asylums, and a number of Milwaukee local bills.

Adjourned till 2 o'clock, when a vote will be taken for United States Senator.

Special Correspondence.

MADISON, Jan. 21.—At 12:30 this morning the Republican caucus, after taking thirty ballots without arriving at any definite results, adjourned to meet at eleven a. m. to-day, leaving the Senatorial muddle as when it adjourned last Friday evening. How long the dead lock will remain is beyond prediction. It was thought and hoped that a nomination would have been made last evening, but the result of the several ballots showed that the partisans of each candidate remained true and firm to his liege. The real "dark horse" has not yet put in an appearance, though he may be in training, and will come bounding upon the track when least expected. As to this question of a "dark horse" I think candidly that the feeling is strongly adverse among members, and others to any such proposition, which if addressed to may cause the withdrawal of one or more of the prominent names now before the caucus, so that a nomination can be made before a ballot is taken this afternoon in each house. "We shall see what we shall see."

A JOUUNEY ON SNOW SHOES.

Toilsome Journey from Manitoulin to Toronto by Two Members of the Canadian Parliament.

From the Toronto Globe, January 11.

Although snow-shoeing is a pastime frequently resorted to by residents in the more settled districts of Ontario, yet when rendered an only means of locomotion, there is certainly more hard task than pleasure attached to the practice. This statement if fully borne out by the experience of a party composed of seven persons, who left Manitoulin Island for Toronto on the 30th ult. The expedition was made up of R. A. Lyon and W. D. Lyon, members of the Provincial Parliament; W. A. Abney, Mr. Merryfield, and three Indians who acted as attendants while on the road to Parry Sound. The remainder arrived in the city on Wednesday, and yesterday furnished the account given below of the trip: At six o'clock a. m., on the 30th ult., the company left Michael Bay, at the southern extremity of the Manitoulin Island, on snow shoes for Toronto. They started out in a northerly direction toward Manitowaning, an Indian village in the township of Assignaig. This place was reached about 4 o'clock in the afternoon, after a hard day's march through deep snow. The travelers were furnished with quarters by the inhabitants, and on the following morning continued their journey northward until about 4 p. m., well satisfied with the treatment they had received while in the village. A team was procured to convey the luggage as far as Sheguaandah, and the Indian attendants were thus relieved of a burden while crossing the rough country. The latter village was reached in safety, and on Wednesday morning the expedition again moved northward, toward Killarney, 28 miles distant, which place they expected to arrive at before nightfall. The ice covering the water extending between Sheguaandah and Killarney was pretty secure, and traveling over it was preferred rather than on the rocky land. Another advantage gained by choosing the ice was that the company could travel in a more direct course. Rapid progress was made for about 25 miles, when open water was reached, and they were compelled to travel by land again. Upon the advice of some Indians they endeavored to reach Killarney village, by crossing the Killarney mountain. In consequence of its steep incline, together with the deep snow which covered its rugged sides, but little progress was made, and for over two hours they struggled to reach its summit. Darkness had by this time fully set in, and being obliged to remain where they were, a cotton tent was pitched and a fire lighted outside, on which supper was prepared. The meal was prepared of roasted pork, bread and tea. A comparatively comfortable night was spent, and on Thursday morning the company descended the mountain, and passing over a frozen channel, reached Killarney in the afternoon.

The journey was resumed about nye o'clock next morning, and after having traversed about five miles over the ice in an easterly direction, an encampment of Chippewa Indians was visited. An invitation was extended to the party to remain over night, which they did, and were entertained very hospitably. The direction to be taken now lay along the eastern extremity of the bay, and for distances traveling on the ice was rendered almost impossible on account of the many projecting pieces of ice which had been broken by the waves and afterward frozen solidly to the mass. There were numerous water-holes, which obliged the company to take to shore. After having passed through a tract of rocky bushland they came to a morass, which was crossed with very great difficulty. Occasionally some of the party would sink down through the snow into the mud, and before it had been crossed some of them were so heated by the exercise that they took off their coats, and this notwithstanding the fact that the mercury must have been below zero considerably. Grumble Point was finally reached in the evening, only twenty miles having been made during the day. One of the party and an Indian, who had given out and remained behind on the marsh, arrived at 8 o'clock, being about an hour after the rest. Here, as at the other Indian settlements, they were treated kindly, and although fatigued with so hard a day's travel, they started early next morning toward French River, taking to the ice over the Georgian bay once. Nothing remarkable occurred until the party were crossing the Bad river, when the ice broke several times, letting into the water some of those crossing. As a safe mode of getting over one or two crawled to the other side on their hands and knees, while the others felt the ice in front of them before crossing. The company halted about 6:30 o'clock at Mr. E. B. Borron's residence, on the banks of the French river. An interesting evening was spent with this gentlemen, who is an ex-member for Algoma District. On Saturday morning they resumed their journey on the ice, and reached Byng Inlet, a distance of 26 miles, early in the evening. Leaving at 6 o'clock on Sunday morning, they traveled 35 miles to an Indian village, which was reached about 7 o'clock the same night. Taking an uncommonly early rise on Monday morning, they started off about 3 o'clock through a thick bushland toward Parry Sound. After having walked 13 miles the party came to a government road where a team was engaged to carry them through to Parry Sound. The Indians here left to return, and after fourteen miles had been traversed Mr. Lyon and company reached Parry Sound at 5 o'clock in the evening. At 2 o'clock on Tuesday morning the party left by team for Bracebridge, a distance of 52 miles, and reached it in the evening. At 4 o'clock the next morning the party left by stage for Gravenhurst, where the cars were taken for Toronto.

The whole distance traveled was about 374 miles; 210 miles of the distance was covered by snow-shoes, 64 by team, and 100 by rail. The time occupied in traveling the distrance was about ten days.

THE GAZETTE.

TUESDAY, JANUARY 21, 1879.

MILTON.

—Four car loads of live hogs were shipped from this station last week, Smith & Co. shipping three and Williams and Borden one. The market was active and firm here throughout the week, notwithstanding the slight decline at packing points induced by the large receipts of the first three days of the week. On Friday the Milwaukee market reached the highest point reached for several weeks. Prices here ranged at $2.35 to $2.60 for fair to extra choice, and farmers are inclined to sell as soon as their hogs are ready, rather than hold for higher values.

—The quarterly meeting of the M. E. church was in session here last Saturday, and Sunday. Presiding Elder Stowe preached Saturday afternoon and Sunday morning. The attendance was quite large.

—Last Wednesday a resident of this village was arrested on a warrant issued by Justice Clarke, for entering the house of his brother-in-law (after he had been forbidden to do that same thing) and using abusive and obscene language to the inmates thereof. The defendant appeared and plead guilty, whereupon the Court fined him one dollar and costs, which amounted to two dollars, making the whole bill three dollars. He then decided that rather than pay the fine and costs he would sojourn for ten days at the Hotel de Comstock, and Constable Davidson went down to Janesville on Thursday and delivered him to the Sheriff.

—Senator Richardson has our thanks for a copy of Secretary of State Warner's annual report. It is a work in which tax payers have a lasting and abiding interest.

—Last Wednesday Mrs. Saunders, mother of Mrs. Harriet S Clarke, celebrated her eighty-first birthday at the residence of her daughter. Mesdames Baldwin, Platts, Greenman, Coon, Newcomb, and Clarke were invited to participate in the pleasure incident to the occasion. The united ages of the seven ladies aggregated 536 years, the youngest being 70 years of age and the oldest 84. It is seldom that seven as aged ladies partake of a birthday dinner.

—Charley Morse, local editor and junior partner of the firm of Kimberly & Morse, proprietors and publishers of the Sioux Falls (Dakota) Times, arrived in town Thursday morning, to participate in a reunion of the "Old Ox Club," and visit his former classmates and friends. We were all glad to see him. He returned to Dakota this week, accompanied by Mrs. Kimberly, of Brodhead, wife of his partner.

—Some of our citizens attended the Methodist revival meetings at the Junction.

—Postmaster Green has recovered from his illness, and resumed his official duties.

—A number from this locality attended the donation for the benefit of Rev. J. C. Rogers, at Rock River, on the 14th instant. If any clergyman is deserving of such visits, Rev. Rogers is the man.

—"Sile" Barnhart, formerly a resident of this town, now of Oconomowoc, visited his Milton friends last week,

—One of our newspaper correspondents is learning the typographical art as a compositor in the Milton Register office. That office no longer needs a "divil."

—Social at Hamilton's hall, this (Thursday) evening. An interesting programme will be presented.

—The gentlemen were all out, Thursday morning, shoveling snow. The lazy man is known by his sidewalk.

—Marks, the knight of the razor, and shears, was on the sick list last week.

—The Sons of Temperance intend to present the drama "All that Glitters is not Gold" on the 5th proximo, with a full cast. Frequent rehearsals are being held, and the actors are already well up in their parts.

—A sleigh loaded with maidens fair and young gents with close-cropped hair, came around the postoffice corner one night last week. The horses were running, and the box parted company with the sleigh, spilling the occupants in such a manner as to make them resemble an animated kaleidoscope. Fortunately the jolly party escaped with nothing worse than bleeding nasal protuberances and divers and sundry bruises. Such performances are decidedly dangerous, however, to those who participate therein, as well as to those who are driving in proximity thereto, in addition to the fact that it is very cruel to the horses, which in this case had been driven until completely exhausted. We need a Bergh here very much sometimes.

—Loans are being made here on long-time, real estate security, at seven to eight per cent., and still fiatists prate about the scarcity of money.

—Greenbackers are impudent enough to claim that the enhanced value of treasury notes is due to their efforts alone, and that the resumptionists are not entitled to any credit whatever.

—Some sales of barley have recently been made here at forty to sixty cents. Kline, of Fort Atkinson, was the buyer.

—Fishermen had a good run of luck at Koshkonong last week.

—These are the times when men, who were supposed to be wealthy, turn out to be as impecunious as many whom all the world knew to be poor. Men and commodities are finding their level.

—Milton was represented at the Bower City Band concert last week, and all were much pleased with the entertainment.

—It is a matter of great surprise to those who give the matter thought, to note the alarming prevalence of slang in the conversation of people generally. It is indulged in by all classes, of all ages, and of both sexes and upon all occasions. A move should be made to stamp out this practice, or on the other hand, to incorporate the study of slang into the curriculum of all our schools. We would suggest that an "Anti-Slang Association" be formed in ever town and an effort made to eradicate this growing evil. Let the literary societies of the college impose a fine on every member who indulges in a slang expression at their sessions, and their library fund will grow into magnificent proportions.

—Johnny Grier has charge of the horses belonging to E. H. Broadhead, of Milwaukee, the most notable of which are the 4-year-old stallion, Kentucky Wilkes, and 3-year-old Honest Minnie, that trotted a quarter in 33½ seconds.—*Chicago Times.*

—The Band boys are doing good work now, having the assistance of Bingham, and are learning some difficult music. There are fourteen players now and most of them are well up in their several parts. They are deserving of encouragement from the citizens of our village.

—Jno. M. Lane returned to his Iowa home last Friday.

—F. C. Maxon, of Milwaukee, arrived in town Friday. He intends to remain here for a time.

—Eighteen below zero Sunday morning. Very few would believe the fact who did not arise before "sun-up."

—Rev. James Bailey started for Bloomer, Chippewa, county, this week to visit "Uncle," David Cartwright and other friends.

—Section foreman Rachford has received several car loads of steel which it to be laid between this village and Milton Juction.

—Liveryman Davidson was housed-up last week with a bad cold. His wife is convalescent.

—Miss E. D. Cartwright is quite ill at the present time of writing, being threatened with inflamation of the brain.

—Charley Ferris started for St. Paul Monday with a span of horses. He went by rail and intends to make that city his home.

—The Literary Societies of the college have arranged a course of six lectures and will sell tickets for the full course at the "hard time" price of fifty cents each. Among those who are likely to lecture in this course may be mentioned, Reverends T P Sawin and Jenk Ll Jones, Prof S S Rockwood and Miss Ella Giles. The first lecture will be given next week, and for particulars see posters. The citizens of this village ought to encourage this enterprise by taking fifty course tickets, and the students will take as many more, thus insuring the financial success of the course.

JOHNSTOWN CENTER.

—Mrs. Pember and her son Frank, of the Edwards house, Janesville, were in town last Sunday.

—Some of our citizens whose nasal organ is quite prominent have become quite intimate with Mr. Frost within the past few days.

—Mr. J. S. Bliss, of Janesville, will deliver his famous lecture entitled, "Mount Vesuvius; or, What I Saw Down in a Volcano," at the church in this village on Saturday evening, January 25. The public are cordially invited. Admission ten cents.

CLINTON.

—Elder Reed, of Sharon, and Elder Eaton, of Beloit, have been assisting the pastor of the M. E. church in holding a series of interesting meetings at the church during the past week.

—Mr. Logan is slowly recovering from a severe attack of typhus pneumonia.

—Charles Lee's daughter is seriously ill.

—Several cases of diphtheria of a mild type are reported.

—Clinton refrigerators and ice houses are being filled to repletion with a most excellent quality of ice. Probably more than 300 tons will be stored in our village. Reigart, Kennedy & Co. have built and filled a house of 100 tons capacity, in addition to the 60 tons in their refrigerator.

—Mrs. F Treat has returned from a three months' visit to her children in Iowa.

—Several of our citizens contemplate moving west in the spring.

—Woolston and Newhouse carry their hand in a sling. Felons.

—D G Cheever. Byron Snyder and other dairymen of Clinton attended the Wisconsin Dairymen's Association at Kenosha on the 22d and 23d inst.

—J L Hart, of Watertown, one of our most prominent cheese dealers, and western agent of George S Hart & Co., of New York, was in town a few days since. He reports the cheese market dull and slow, but hopes for an improvement soon.

—At Covert and Cheever's you will find choice goods at bottom prices.

—Mrs. R. W. Cheever visited Chicago friends the first of the week.

—Discussing the Senatorial question is the chief business of our village nail keg polishers. Each of the named candidates has his followers even to the "great unknown."

—As Guy was taking a beef creature to the slaughter house in a stock rack on a sleigh, he suddenly capsized while crossing Weaver's plowed ground and for a few minutes it was an undecided question which was going to slaughter.

—Peter Turneaure and wife, of Rockford, worshiped in Clinton last Sunday, and are looking as though they enjoyed life.

—Pat Raddaus' amputated arm is doing as well as could be expected.

—Where did "Chris." Oleson get his inspiration last Saturday, is often asked.

—The annual spasmodic desire on the part of some of our citizens for a village charter has again returned. Just as though we had not already ways enough to spend money these hard times.

LIVER.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel, scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

Dr. Price's reputation has been acquired by candid, honest dealing and years of successful practice.

My practice not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.

PROF. HARRIS' RADICAL CURE FOR SPERMATTORHŒA.

—THE—

"SEMINAL PASTILLE"

SHAPE & SIZE OF A SEMINAL PASTILLE

A Valuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the speedy and permanent Cure of Seminal Emissions & Impotency by the only true way, viz: Direct Application to the principal seat of the Disease, acting by Absorption, and exerting its specific influence on the Seminal Vesicles Ejaculatory Ducts, Prostrate Gland and Urethra. The use of the Remedy is attended with no pain or inconvenience, it is quickly dissolved and soon absorbed, producing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dimness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Society, Etc. Etc. and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation, Practical observation enables us to positively guarantee that it will give satisfaction. —During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in a neat box, enough to last a month, and sent in a plain wrapper by mail sealed for $3.—Two boxes, (sufficient to effect a permanent cure unless in severe cases) $5 —Three boxes lasting three full months, will stop emissions, and restore vigor, in the worst cases $7.—Full DIRECTIONS for using will accompany EACH BOX.

Send for a Descriptive Pamphlet giving Anatomical Illustrations, which will convince the most sceptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected. Sent Sealed for stamp to any one. Sold ONLY by the

TUESDAY, JANUARY 21, 1879.

CITY AND COUNTY.

BRIEFLETS.

—Slippery sidewalks.

—It is choose-day at Madison.

—Old folks' party of the Temple of Honor to-night.

—The Veterans will show up their new clothes at their military ball on Thursday night.

—Court Street social to-night at S. D. Conant's, free to all. Coffee and sandwiches, for those who wish.

—Mrs. Abby Sage Richardson had about seventy-five persons to hear her read at Lappin's hall last night.

—A man has to work mighty hard these days to earn his bread by the sweat of his brow. It's too cold to sweat.

—Alderman Hemming, of the Fifth ward, has one too many slings to suit him. It is wrapped around a felon on his left hand. The other hand is all right of course.

—The remains of Mrs. John P. Hoyt, which will arrive to-morrow afternoon at 1:30 o'clock, will be taken at once from the depot to the cemetery, where Rev. T. P. Sawin will conduct the usual services.

—Rev. L. N. Wheeler, former pastor of Court Street Methodist church, arrived in the city to-day, and it is to be hoped he will be at the social at Mr. S. D. Conant's this evening. He is warmly welcomed.

—Last Thursday morning Mr. and Mrs. Robert A. Brown of Amazon, Nebraska, the latter a daughter of Mr. H. Russ of this city, on waking up found their only child, an infant a few months old, lying dead in the bed.

—The Common Council met last night to vote on the question of adjourning til Saturday night. They succeeded in carrying the question and scattered again feeling quite proud of the promptness with which they had transacted the business on hand.

—If the railroad companies would only limit passengers' baggage to a few cubic yards instead of 150 pounds, what a havoc there would be among those who tote bird cages and band-boxes. The only objection would be that the St. Louis maidens couldn't travel at all, as the size of their feet would bar them out, except on flat cars.

—All eyes are turned Madisonward, whither have gone a large number of Janesville grip-sacks. Those who stay at home sing "Watching and Waiting," and busy themselves with asking, "How's Howe?" "How about the Carpenter trade?" "Will the Keyes fit the dead lock in the caucus?" The Gazette's telegrams contain all the answers possible to give.

—Alderman McKinney has cleared up a mile track on the ice of the river, commencing at the ice houses and running north, and opportunity is now given to all who desire to speed their steeds, without using Main street as a race course. The Marshal has issued his edict that hereafter the law shall be fully and promptly enforced, and no fast driving shall be allowed to longer endanger the lives of foot travelers on that street. Amen, Mr. Keating.

—If everybody knew everything there would be nothing to learn or nothing to tell, but one of the things which everybody does not know, but which everybody should know is, that in case of fire the gas fixtures should not be hastily torn out without the gas being turned off. Yesterday afternoon in Mr. Denniston's house the fixtures were torn out and the gas left pouring into the rooms. The risk of an explosion is thus made very great, and should be guarded against.

—Assemblyman Lovejoy has introduced a bill providing for the appointment of female notaries. Two or three years ago a law was enacted giving them power to act in that capacity, but the law was repealed by the Legislature of 1878. Under that law quite a number of female notaries were appointed, among them being Miss Goodell, of this city, whose term shortly expires. Always mindful of the rights of women, so far as they acting in the capacity of notaries are concerned, Mr. Lovejoy proposes to see that their rights are restored to them.

THE WEATHER.

The thermometer at 7 o'clock this morning stood at 6 degrees above zero, and at 2 o'clock at 32 degrees above. Clear. One year ago to-day at corresponding hours the thermometer stood at 30 and 36 degrees above.

The indications are, partly cloudy weather, and occasional snow, with rising temperature, south to southwest winds, and falling barometer.

DEATH OF SAM DAVIS.

The report given in last evening's Gazette concerning the death of the well-known engineer Sam Davis, proves, alas, to be too true. He was in the Superintendants office, at Chicago, yesterday morning, talking, when he was taken suddenly ill, and died in a few minutes. The injury received by him last summer is supposed to have affected his brain, and although apparently almost recovered, it caused his sudden and sad death.

WORK OF THE "JAPS."

Rev. William Curtis, a brother-in-law of Loren Cheney, of Emerald Grove, has sent by mail from Japan a number of curiosities as gifts to his relatives Miss Rilla Cheney, Roy Cheney, Ella Cheney, and Ralph Cheney. Mr. Curtis is a missionary working under the auspices of the American Board, and stationed at Osaka. The gifts include some very curious books and pictures, balls, tops, fancy boxes, mats and envelopes, also a huge fish made of paper, on the baloon principle, so that it can be flown as a kite. When filled with air it looks exactly like a monstrous fish. The Japanese fasten these fish to the mastheads of their ships, and the wind entering the mouth swells out the fish, and at that height above the deck it appears precisely like a genuine fish of mammoth proportion. Several sandals were sent, and a number of artificial birds. The feathers were so arranged and the wooden bills so nicely painted that few could detect but what they were stuffed birds. Mr. Curtis also sent a photograph of himself and wife, the latter seated in a two-wheeled cart drawn by a native. The collection affords not only great delight to the recipients, but proves greatly gratifying to the curiosity of the friends who are privileged to inspect the various articles.

COTTON CLOTH.

Janesville Makes Enough of it in One Year To Stretch Across the Continent—Annual Meeting of the Stockholders of the Factory.

The cotton factory is an established success, and the showing for the past year is even more satisfactory than that of any previous year. To-day the stockholders held their annual meeting and looked over the facts and figures with glee, for they show that during 1878 the production had been increased over ten per cent over the production of the year previous, and the cost of production per yard had been decreased. Each year has shown an increase of prosperity, and the year's work, following the same experience, excels its predecessor. The factory has been in the hands of experienced, practical men, who have been aided by the wise counsel and financial wisdom of the directors, so that in spite of hard times and low prices the showing is a flattering one and full of promise.

The official reports show that during the past year there have been manufactured 4,553 bales, making 110,776 pieces, or 5,350,901 yards. Few can grasp such figures, but it will give perhaps a better idea of this production to state that the factory in producing this amount has manufactured a web long enough to reach across the continent, which proves a mammoth sheet for one year's work. The cash value of the goods thus manufactured reaches $310,993 10. There were consumed in this production 3,238 bales of cotton, having a total weight of 1,593,264 ponnds, and it cost $186,188.

The pay roll is by no means a small item as many of the merchants, whose trade is thus increased can testify. The monthly pay roll averaged $5,851.45, giving a grand total of $70,217.46 disbursed during the winter months.

The following directors were elected this afternoon: W. A. Lawrence, F. S. Eldred, E. W. Fisher, A. J. Ray, E. C. Smith, Henry Palmer, Peter Myers, J. J. R. Pease, L. B. Carle.

A SMALL BLAZE.

Yesterday afternoon about 4 o'clock the alarm of fire was sounded, occasioned by the discovery of flames and smoke bursting from the roof of J. A. Denniston's residence in the First ward. An amateur bucket brigade commenced work before the fire department reached the spot and got the engines to work. A hole was cut through the roof and the blaze soon squelched. The furniture was all removed, and suffered only such damage as came from a hurried handling. The building was badly damaged by smoke and water, the roof being badly used up. The loss on house and furniture is covered by insurance, the former being insured in the Franklin, with Dimock & Hayner, and the latter in the Hartford, with Lowell & Ripley. The fire is supposed to have originated from a defective flue.

DEATH OF B. J. MACK.

The Webster County Gazette of Fort Dodge, Iowa, announces the death of Benjamin Elijah Mack, who is an uncle of the late George Mack, of the town of Turtle. Mr. Mack being a former resident of this county, and having many friends and acquaintances here, we give the obituary notice as published in that paper:

Benjamin Elijah Mack was born October 15, 1802, in Lyme, Connecticut, married Miss Fannie B. Wright in 1837 and moved West to Chicago and finally to Beloit, Wisconsin, in 1841. He was one of the early settlers in that section and lived for many years on his homestead three miles from the city, known as Apple Grove farm. In 1865 he came to Iowa and settled in Waverly where he engaged in mercantile pursuits. His health soon failed him and in 1869 he came to Fort Dodge and has since resided with his daughter, Mrs. L. E. Hurlbut. During the last ten years he has been a great sufferer from inflamatory rheumatism and lung difficulties and of late he has been deranged much of the time. In religion his views were very liberal, having formerly been a member of the Universalist church, but of late years he was a firm believer in Spiritualism. It was his request that there should be no display of grief or sign of mourning at the funeral. The future life, he thought, would be so far beyond this that a departure to it should be reason for rejoicing rather than a cause of sorrow. As he neared his end he constantly expressed his wish to "go home," and just before death his face brightened with a smile that was remarked by all who stood by.

The wife of his youth survives him, though much worn and broken by the care of his last years.

Mr. Mack was a member of the Masonic order and one of the founders of the lodge at Shopiere, Wis.

PLYMOTTH.

—The struggle for possession of our mill is quite exciting and is watched with much interest by our people. It comes quite opportunely, as it had grown mighty dull and this serves to relieve the monotony. The mill was recently sold to Mr. Leavens of Sheboygan Falls, and the matter was designed to have been kept secret until the moment for possession arrived. Mr. Witmer came down on Tuesday to take possession and complete the transfer by giving Leavens possession. The matter had leaked out, and when Witmer entered the mill, a very confused condition of things greeted him. The stones were turned up and the crane screw gone. Proof staff, belts, scales, trucks, and shaft for running cornsheller gone. Sheriff Comstock came out in the evening and arrested Beckman, and next day came out and arrested Jake Ehrlinger, who is also quite conspicuous in the matter. Their cases were adjourned by Justice Wickham, before whom they were taken until Wednesday.

As Beckman would not give up his key, Witmer's party procured a lock, which they proposed to put on the door but during a temporary absence it was entirely demolished. They procured another lock, and proceeded to put it on the door, but were prevented from so doing by Beckman. An officer came out on Friday with a warrant sworn out by Beckman for the arrest of Leavens. Mr. Leavens happened to be in Chicago, where he has gone to purchase some necessary repairs for the mill. Later in the day Constable Taylor came out and replevined the sheller which Jake claims. Witmer got his dander up, and went at Jake, who continually came to the mill, and it is said, threw him out three or four times, and then knocked him down by way of variation. Beckman was arrested again Saturday night. All is quiet at present writing.

—Carroll & Little shipped another car of hogs on Friday, paying as high as $2,50.

—One of the most distressing as well as revolting sights our town has witnessed for some time, was that of a man on Friday night, in such a beastly state of intoxication that he was nearly helpless, and upon falling down would wallow about in the snow, unable to get up again. And he is a husband and father.

—The social at Mr. Linly's was in every way a success. Upwards of a hundred people were present. Everyone seemed to enjoy it to the fullest possible extent. An elegant repast was served, to which the crowd did ample justice. Games were introduced, and with these and social chat the evening wore rapidly away, until the "wee sma" hours appeared. Even then the crowd seemed loth to disperse. Altogether it was a scene of jollity and enjoyment such as we rarely have seen.

SCHOOL EXAMINATION.

An example worthy of being followed by other teachers was that set by Miss Helen Welch, in the public examination of her school in the First district in the town of Center, familiary called the "Center Academy," from its prominence among the schools in that vicinity. Miss Welch has had charge of this school for several terms, and it is mainly indebted to her energy for the high rank it has attained among its fellows. That the patrons might see what progress was being made in the school, a public examination was held on Thursday, when the parents and friends of the pupils were invited in. Notwithstanding the unfavorable weather, quite a number of them waded through the deep snow to hear the examination, which mark of interest was duly appreciated by both teacher and pupils, and will no doubt encourage them to renewed efforts in the future. Several classes were examined during the afternoon in penmanship, spelling, geography, and arithmetic, and all acquitted themselves in a manner creditable to themselves and flattering to their teacher. When all did well, it is needless to particularize, yet one class, that in Robinson's Higher Arithmetic, did so well that it merits special mention. This examination was conducted by Mr. W. Bleasdale, who took charge of the class by special introduction. Commencing at percentage the various rules were taken up in their regular order and dissected in a manner that showed every member of the class to be master of the subject. The promptness and accuracy with which all questions were answered, evinced no small degree of thoroughness, while the ease and readiness with which they handled the problems selected miscellaneously showed that they were masters not only of the principles themselves, but in the application of those principles to the various cases under consideration.

The day's programme was concluded by essays and declamation many of which were meritorious. A recitation by Anna Fisher, a promising little girl of nine or ten, was prettily rendered and received a good deal of praise.

Authoress of "Mrs. Elliott's Housewife," Oxford, N. C. writes: I was among the first that used the "London Hair Color Restorer" in this section, and recommended it to M A & C A Santos, Norfolk, Va., as the most beautiful hair dresser and preserver I had ever seen. I was advised by an eminent physician to use it. Since doing so, it has proved so satisfactory in restoring and beautifying my hair, as well as strengthening my eyesight, that I have recommended it to the druggists here in Oxford, Raleigh, and a great many of my friends, and believe I have from what others say, caused it to have a wide and extended sale, and deservedly so, as it certainly is the most cleanly and effective hair restorer now before the American people. The "London Hair Color Restorer" can be obtained at all the leading druggists at 75 cents a bottle, or $4 for six bottles. jy30deodw1y-4
